

ANNUAL REPORT
OF
THE FIRE MARSHAL
FOR THE PROVINCE
OF
NEW BRUNSWICK

Statistics 1980

Madam:

Pursuant to Section 5 Fire Prevention Act, R.S.N.B. Chapter F-13, 1973, I have the honour to submit the Annual Report of the Fire Marshal for the year ending December 31, 1980.

The breakdown of losses by cities, towns, villages and rural areas (counties) is clearly shown in Table No. 1, the Per Capita Loss, Provincial, City, Town and Rural areas in Table No. 6.

Table No.	1 - Fires and Losses by location of places
Table No.	2 - Act or Omission
Table No.	3 - Source of Ignition
Table No.	4 - Property Classification
Table No.	5 - Summary of Losses year 1978, 1979, 1980
Table No.	6 - Municipal Per Capita Losses
Table No.	7 - Ten Year Loss Figures
Table No.	8 - Major Fires \$100,000 and over
Table No.	9 - Statement of Fatalities
Table No.	10 - Statement of Injured
Table No.	11 - Summary of Inspections by Counties

We are endeavoring to meet the challenge of the ever increasing fire losses with a vigorous fire prevention program to educate the public in the need for everyone to be aware of the need to practise good fire prevention in their homes, places of work, worship and anywhere they may gather. The Fire Marshal's office is in the process of programming and near completion to record fires in Micom Data and word processing.

This process will expedite the compiling and reporting, fire losses, an operator is being trained for this project now and the 1981 fire loss reports will be compiled in this manner.

The monetary losses for the year 1980 show a decrease over the previous year. Our number of fires decreased from 2004 in 1979 to 1908 for 1980. However, we are sorry to report that our fatalities increased by eight; again the majority of lives lost by fires were in homes.

The Bathurst office was opened again, Fire Prevention officer Aldao Robichaud reported for work on January 7, 1980 and since then has been carrying out the duties of a Fire Prevention Officer.

The Fireman's Training Van was received on July 8, 1980 and has been used extensively for training purposes since then by Charlie MacDonald, Supervisor of Firemen's Training and Education, Norman Thibodeau, reported for work on November 17, 1980 as a Training Officer and has been working with Charlie since then out of the Fredericton office.

Our volunteer fire fighters training program and fire prevention education program has had another very good year. Ten weeks of training were carried out at the N. B. Fire Fighters Training Academy in Saint John. One hundred and ninety-three (193) candidates received training in Basic Fire Fighting Phase I, II, III and IV and one Rescue Technique Course.

There were 5 courses of Basic Fire Fighting Phase I	- 144
2 courses of Basic Fire Fighting Phase II	- 44
1 course of Basic Fire Fighting Phase III	- 7
1 course of Basic Fire Fighting Phase IV	- 14
1 course of Rescue Techniques	- 14
Total Attendance	- 193

Our Supervisor of Firemen's Training and Education spent eleven days out of province on Arson Instructions and six days in the province on Arson Instructions.

Fourty six Fire Prevention Lectures were given at different schools with a total of 13,735 students attending.

Six seminars were given to Industrial employees with a total of 232 attending these one day seminars.

There were twenty seven fire fighters training seminars held at different Associations with a total of 1088 fire fighters attending also twelve fire prevention lectures given to different groups with a total of 312 people attending.

Fire Prevention radio and T.V. interviews were given including messages on spring clean up, Christmas safety messages and Fire Prevention week and seven Association meetings were attended.

The Hospital and Nursing Home Safety program was continued during 1980 with a total of 27 two and three day seminars at different hospitals with 1166 staff members receiving safety training and 26 two and three day seminars at different Nursing Homes with 831 staff members receiving safety training.

Two arson seminars were held; one two day seminar in Saint John, N. B. on April 2 and 3 with a total of 23 people attending and, a one week seminar in Edmundston on October 20 to 24 with a total of 34 people attending from Police Departments, Fire Departments and other Associations.

New Fire Departments were organized, also several pieces of new fire fighting equipment were purchased and fire stations were erected. Our thanks and appreciation goes to the Department of Municipal Affairs for their continued support.

The plans examined for new construction and renovations showed a decrease for the year 1980 from the year 1979.

Our staff attended several training seminars, workshops and other courses to further their knowledge in the work they perform.

As Fire Marshal I attended the annual meeting of the Association of Canadian Fire Marshals and Fire Commissioners which was held in St. John's, Newfoundland. I also attended the annual meeting of the N. B. Fire Chiefs Association which was held in Newcastle, N. B. Also attended advance Fire Investigation Course in Toronto and other training courses.

In conclusion Madam, I wish to express appreciation for the support and co-operation from all government departments, insurance companies, insurance adjustors, Insurance Crime Prevention Bureau, the Insurance Advisory Organization N. B. Branch, Insurance Bureau of Canada, The Royal Canadian Mounted Police who contributed so much to our work, The Municipal Police Forces who assisted us greatly, all administrators of our Hospitals, Nursing Homes and Special Care Homes, School Boards and all others with whom we have had the pleasure of associating.

Our office greatly appreciates the co-operation that exists between Municipal and Industrial Fire Departments.

I wish to extend to all concerned my sincere thanks for a job well done and look forward to continued co-operation from all and sincerely trust that we will continue to progress towards our goal in all work performed by the Fire Marshal's office.

I have the honour to be,
Madam,
Your obedient Servant

G. R. Elliott
Fire Marshal

L'HONORABLE MABEL DEWARE
Ministre du Travail et de la Main-d'oeuvre
Province du Nouveau-Brunswick

Madame:

Conformément à l'article 5 de la Loi sur la prévention des incendies, chapitre F-13 des L.R.N.-B. de 1973, j'ai l'honneur de vous soumettre le rapport annuel du prévôt des incendies pour l'année se terminant le 31 décembre 1980.

La répartition par cité, ville, village et région rurale (comté) des dommages matériels est clairement illustrée par le tableau 1 tandis que les chiffres relatifs aux dommages par habitant à l'échelle de la province ou des cités, villes et régions rurales se trouvent au tableau 6.

Tableau 1-	Incendies et dégâts matériels selon les endroits
Tableau 2-	Action ou omission
Tableau 3-	Foyers d'incendie
Tableau 4-	Classification des biens
Tableau 5-	Sommaire des dommages pour les années 1978, 1979, 1980
Tableau 6-	Dommages par habitant - municipalité
Tableau 7-	Chiffres des dommages subis pour les dix dernières années
Tableau 8-	Incendies importants - Dommages pour \$100 000 et plus
Tableau 9-	Chiffres sur les pertes de vie
Tableau 10-	Chiffres sur les cas de blessure
Tableau 11-	Sommaires des inspections par comté

Nous nous efforçons de faire face au problème que pose l'accroissement des dommages matériels causés par l'incendie au moyen d'un rigoureux programme de prévention. Le programme a pour but de sensibiliser le public à la nécessité pour chacun des citoyens d'appliquer des mesures efficaces de prévention des incendies dans les foyers, les lieux de travail, les églises et dans tous les endroits de rassemblement. Le bureau du prévôt des incendies fait actuellement la programmation et la mise au point d'un système qui permette d'emmagasiner, dans une machine de traitement des mots et des données, les renseignements relatifs aux incendies.

Ce système accélérera la cueillette et la compilation des données relatives aux dommages matériels causés par l'incendie. Une opératrice reçoit maintenant une formation pour ce projet et le rapport de 1981 sera traité de cette manière.

La valeur totale en argent des biens détruits en 1980 a accusé une baisse par rapport à l'année précédente. Le nombre d'incendies signalés a diminué de 2004 en 1979 à 1908 en 1980. Toutefois, c'est avec regret que nous signalons une augmentation de 8 pertes de vie; cette année encore, la majorité des pertes de vie sont survenus dans des habitations.

L'activité a repris au bureau de Bathurst: Aldéo Robichaud s'est présenté au travail le 7 janvier 1980 et il occupe depuis ce temps les fonctions d'Agent de la prévention des incendies.

C'est le 8 juillet 1980 que nous avons reçu l'Unité de formation des pompiers du N.-B. et Charlie MacDonald s'en est beaucoup servi depuis pour la formation. Charlie MacDonald occupe le poste de Surveillant de la formation des sapeurs-pompiers et de l'éducation en matière de prévention des incendies. Norman Thibodeau s'est présenté au travail le 17 novembre 1980; il est Agent de la formation et, depuis son entrée en fonction, il a travaillé avec Charlie à partir du bureau de Fredericton.

Nos programmes de formation des pompiers volontaires et d'éducation en matière de prévention des incendies ont connu une autre très bonne année. Des cours ont été dispensés pendant dix semaines à l'école de formation des pompiers du Nouveau-Brunswick à Saint-Jean. Cent quatre-vingt-treize (193) candidats ont reçu une formation en techniques de base de lutte contre les incendies, phases I, II, III et IV, de même qu'en techniques de sauvetage.

Il y a eu 5 cours en techniques de base, phase I	- 144
2 cours en techniques de base, phase II	- 44
1 cours en techniques de base, phase III	- 7
1 cours en techniques de base, phase IV	- 14
1 cours en techniques de sauvetage	- 14
Assistance totale	193

Notre Surveillant de la formation des pompiers et de l'éducation en matière de prévention des incendies a passé onze jours à l'extérieur de la province pour recevoir une formation dans le domaine des enquêtes à la suite d'incendies d'origine criminelle. Il a aussi passé six jours dans la province où il a dispensé une telle formation.

Un total de 13 735 élèves ont assisté à quarante-six conférences sur la prévention des incendies qui ont été données dans différentes écoles.

Six colloques d'une journée chacun ont été organisés à l'intention de 232 travailleurs du secteur industriel.

Vingt-sept ateliers de formation à l'intention de pompiers volontaires ont été organisés en collaboration avec différentes associations et 1088 personnes y ont assisté. De plus, 312 personnes provenant de différents groupes ont assisté à douze conférences sur la prévention des incendies.

Des interviews sur la prévention des incendies ont été accordées à la télévision et à la radio; de plus, des messages ont été enregistrés sur les thèmes du nettoyage du printemps, de la sécurité pendant la période de Noël et de la Semaine de prévention des incendies. Enfin, sept associations ont invité le prévôt des incendies à venir les rencontrer.

Le programme de sécurité dans les hôpitaux et les foyers de soins s'est poursuivi en 1980. Un total de 27 colloques d'une durée de deux et trois jours ont été organisés dans différents hôpitaux et 1166 employés de ces services ont reçu une formation sur la sécurité en cas d'incendie. Ce type de formation a aussi été dispensé à 831 employés de différents foyers de soins à l'occasion de 26 colloques du même genre.

Deux colloques sur les enquêtes à la suite d'incendies d'origine criminelle ont eu lieu à l'intention d'employés de services d'incendie et de police et à l'intention d'autres associations. Le premier qui a duré deux jours a eu lieu les 2 et 3 avril à Saint-Jean (N.-B.); 23 personnes y assistaient. L'autre colloque a duré une semaine, il a eu lieu à Edmundston du 20 au 24 octobre et 34 personnes y assistaient.

Nous avons organisé de nouveaux services d'incendie. Nous avons aussi acheté plusieurs accessoires de matériel moderne de lutte contre l'incendie et de nouveaux postes de pompiers ont été construits. Nos remerciements et notre plus vive reconnaissance s'adressent au ministère des Affaires municipales pour un encouragement soutenu.

Par rapport à 1979, il y a eu une diminution, en 1980, du nombre de plans étudiés aux fins de nouvelles constructions et de rénovations.

Notre personnel a participé à plusieurs colloques, ateliers et autres cours de formation dans le but de parfaire ses connaissances dans le travail qu'il exécute.

A titre de prévôt des incendies, j'ai assisté à la réunion annuelle de l'"Association of Canadian Fire Marshals and Fire Commissioners" qui s'est tenue à St. John's (Terre-Neuve). Je me suis de plus rendu à Newcastle (N.-B.) pour l'assemblée annuelle de l'Association des chefs pompiers du Nouveau-Brunswick. J'ai aussi participé, à Toronto, à un cours avancé d'enquête sur les incendies et à d'autres cours de formation.

Qu'il me soit permis en terminant, Madame, de remercier de leur collaboration et de leur appui tous les ministères du gouvernement, les compagnies d'assurance, les experts d'assurance, le Service anti-crime des assureurs, le Groupement technique des assureurs du Canada - division du Nouveau-Brunswick, le Bureau d'assurance du Canada, la Gendarmerie royale du Canada, qui nous a fourni une aide précieuse, les corps de police municipaux, qui nous ont également beaucoup aidé, tous les administrateurs de nos hôpitaux, foyers de soins et foyers de soins spéciaux, les conseils scolaires et tous les autres organismes avec qui nous avons eu le plaisir de travailler.

Notre bureau est vraiment très heureux de la coopération qui existe entre les chefs des services d'incendie municipaux et ceux de l'industrie.

J'aimerais adresser à toutes les personnes intéressées mes remerciements sincères pour un travail excellent. Je compte sur la coopération soutenue de tous et j'espère vivement que nous continuerons vers la réalisation de l'objectif que nous nous sommes fixé, sur tous les plans du travail exécuté au bureau du prévôt des incendies.

Veuillez agréer, Madame le Ministre, l'expression de mes sentiments les plus distingués.

Le Prévôt des incendies,

G. P. Elliott
